

# STARS AND STRIPES

*and healing light*

## Sunshine and wellbeing are in plentiful supply at NFSH The Healing Trust in the USA. Tutor Karen Coratelli-Smith reports.

**W**e would like to introduce you to NFSH -The Healing Trust in the USA, a joyful and expanding group. There are three Tutors currently offering Healer Development classes, Parts 1-4. David C. Karg and Karen Coratelli-Smith are business partners in spiritual healing work based in Naples, Florida, USA. Nancy O'Donohue, who qualified as a Tutor earlier this year, is shortly relocating from Michigan to New Mexico, USA. All three of us are happy to teach anywhere in the USA.

Currently there are 29 of us practising in the USA, and with our latest Student Member, Anne Collins, we are now also in Ottawa, Canada. Our students come into this work for many reasons. We are often

moved by their stories, and by their ability to heal themselves and others. Here are just two of many accounts.

Jerrine Varila says, "As a young child I felt a deep connection with God; receiving unconditional love, protection and provision in spite of my difficult and challenging experiences. I was always drawn to the hurting and the less fortunate. After surviving my adolescence, I moved into my adult years drawn to spiritual avenues for my own healing. I have taken many courses on healing, and now in my sixties I am working towards applying for Healer Member status with NFSH - The Healing Trust. I now feel like I am home, and learning the 'whys and wherefores' of what I had truly believed all my life. Now I have the understanding, training, support and opportunity to share the healing, love and therapeutic touch with others. I am grateful for my continued healing and the support and encouragement of my mentors, Karen Coratelli-Smith

and David Karg".

Richard Kunzernberger recently, unexpectedly, had personal experience of applying the work. While preparing food for friends on a Friday evening, Richard accidentally cut off a small portion of his finger. As a former Hospital Executive, he knew that the ER would be filled with people at that time. So, he wrapped the finger tightly, and began doing the healing work that he had been learning through NFSH The Healing Trust. For two weeks he diligently did the GAPP and channeled healing. When he finally took off the covering on the finger he continued the healing. His finger has regenerated its part and is perfect in all ways. In his humble way, Richard is overcome with joy to be a channel for others.

Our NFSH Healing Trust Community Healing Sessions are always well attended by healers and guests. We gather one evening every month in Naples, Florida. Our venue is Unity
